This role deals with every aspect of physical delivery of agricultural and metals futures contracts, from licensing procedures, to cash settlements, client service

and systems troubleshooting, frequent internal and external reconciliations, and everything in between. (contracts : Arabica coffee, cocoa, sugar, frozen concentrated orange juice, cotton #2, world cotton [delisted], canola, large and mini gold, and large and mini silver futures).

Bridgewater Associates

Recruiting Operations Coordinator

April 2014 - June 2014 (3 months)

Westport CT

At Bridgewater, time is a commodity that no employee ever has enough of, which is why providing leverage in any department is so important there. I provided operational leverage to three Candidate Leads with partial to full responsibility for approximately 1300 candidates in varying stages of the recruiting process

GBI

Business Analyst Intern

October 2013 - January 2014 (4 months)

Greater New York City Area

At GBI, I worked on projects in every facet of the business (finance, tech, operations, etc.) I was also fortunate to work on the Uniform Transfer to Minors Act (UTMA) Physical Metal Allocation project from start to finish, and was heavily involved with everything from researching legal ramifications of creating the product, to drafting and publishing the FAQ's and product description for the UTMA section, to QA and integration testing of the pre-production product.
